SUDOPRESS Visu Control® fittings

FITNESS FOR CONTACT WITH DRINKING WATER

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation"; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- · Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the, for confidentiality reasons, undisclosed 'appendix hygienic aspects' to this certificate.

MARKING

The Kiwa®-mark products are marked with the word mark "KIWA ♥, ♥ or KK

Place of the mark: on the fitting

Compulsory specifications:

- name or mark of manufacturer, on the fitting;
- · outer diameter of the connecting pipe, on the fitting;
- · product code, on the fitting or on the packaging.

Packaging:

The fittings shall be delivered in a packaging unit with a maximum of 20 pieces per package. The package shall be completely sealed and protected against the penetration of moisture.

Method of marking:

- non-erasable:
- · visible after assembly.

APPLICATION AND USE

The fittings with compression ends are being used to make tensile connections in drinking water installations with a maximum working pressure of 1000 kPa and a maximum water temperature of 90°C. The connections can be made with stainless steel tubes according KIWA evaluation guideline BRL K762 and/or copper tubes according KIWA evaluation guideline BRL-K760 in the quality "half-hard" and "hard". These fittings are not suited to be soldered during installation due to the risk of corrosion and the lack of a capillary gap. The fittings may only be used with the manufacturer recommended tightening apparatus. The Visu Control® indicates whether or not the fitting is pressed.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Aalberts integrated piping systems B.V.
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
